

Roof Coatings Manufacturers Association

Association Activity Policy

The following policy has been adopted by the Roof Coatings Manufacturers Association (RCMA) Board of Directors for the conduct of all members in connection with RCMA activities. Each member representative is required:

- To represent its company in a highly professional manner during industry meetings -- considering opposing views, maintaining decorum in RCMA sessions, and abiding by the rulings of the Chair.
- To treat all members, staff and guests with dignity, courtesy and respect.
- To avoid conduct or comments that could be construed as sexual or racial harassment or discrimination.
- To work with members to promote the safe and proper use of roof coatings and cements.

By their continued membership, each member agrees to these principles and agrees to take steps to ensure that its representatives comply with them.
