

APPLICATION FOR RCMA MEMBERSHIP

We, the undersigned, do hereby make application for membership in the Roof Coatings Manufacturers Association [RCMA]. We have read and understand the membership category definitions described in this application. We agree to abide by the Articles of Incorporation and the Bylaws of the Association, to pay all duly levied dues and assessment, and to offer our cooperation in the activities of the Association to further its objectives within the limits provided by the Bylaws.

Please briefly describe your Company including the products you manufacture and/or sell:

Types of Membership (Please Select One)

Associate Member:

Any firm, partnership or corporation engaged in the business of supplying products, equipment, machinery or services to Regular Members [manufacturers of cold process protective roof coatings] for use in their businesses shall be eligible for membership as an Associate Member. Associate Member dues are **\$ 3,300.00 per year.**

Regular Member:

Any firm, partnership, or corporation engaged in the business of manufacturing [or selling private-labeled] [a] cold-process protective roof coatings, [b] cold-process pavement maintenance coatings, patching and repair compounds, or [c] cold-process industrial coatings, shall be eligible for membership as a Regular Member. The coatings described in this membership category should include both bituminous and non-bituminous-based products.

Regular Member Annual Dues: Regular member dues are comprised of two components: one for bituminous-based product manufacture and/or distribution, and the other for non-bituminous-based product manufacture and/or distribution. Dues in the non-bituminous component qualifies the member to participate as a member in the White Coatings Council.

Determination of Regular Member Dues: Since dues are based upon the volume of product shipped, it is necessary for RCMA to obtain specific information in order to determine the appropriate dues for a member. To facilitate this and to guarantee confidentiality, RCMA engages an outside fiduciary, Association Research Inc. (ARI), to receive the shipment information and determine the appropriate dues level. That is the only information that RCMA receives and a company's dues amount is not shared with any other members.

Shortly after mailing in this application you will receive information from ARI regarding the determination of your dues. You can determine your approximate dues level through the following tables. An example of a dues calculation for XYZ company follows below:

Regular Member Dues = Bituminous Component + Non-Bituminous Component
 (if applicable) (if applicable)

Bituminous Roof Coatings and Cements Dues Formula:

Includes Bituminous Metallic and Pigmented Aluminum

Category A - Under 1 Million Gallons	\$3,780 base plus \$160 per 100,000 gallons up to 1 Million Gallons. Category A is to be capped at \$4,725
Category B - 1 Million - 2 Million Gallons	\$4,725 base plus \$160 per 100,000 gallons over 1 Million Gallons
Category C - 2 Million - 10 Million Gallons	\$6,300 base plus \$160 per 100,000 gallons over 2 Million Gallons
Category D - Over 10 Million Gallons	\$12,600 base plus \$160 per 100,000 gallons over 10 Million Gallons <i>with a cap of \$25,000**</i>

Non-Bituminous Roof Coatings (Solar Reflective Coatings Council) Dues Formula:

Includes Elastomeric and White and Pigmented Non-Bituminous

Category AA - Under 100,000 gallons of elastomeric coatings used for roofing and waterproofing	\$1,575 Flat Fee
Category BB - Between 100,000 gallons and 500,000 gallons of coatings used for roofing and waterproofing	\$3,150 Flat Fee
Category CC - Over 500,000 gallons of coatings used for roofing and waterproofing	\$4,725 Flat Fee

Example:

XYZ Company manufactures both bituminous and non-bituminous products. For 2006, the volume of XYZ's bituminous gallons was 300,000 and non-bituminous was 90,000. XYZ's total regular member dues for 2007 would be \$4,260 for its bituminous component and \$1,575 for non-bituminous for a total of \$5,835.

Regular Member Dues = Bituminous Component + Non-Bituminous Component
 (if applicable) (if applicable)

Dues = [Cat A base + \$160 per 100,000] +	Cat AA Flat fee
Dues = \$3,780 + (\$160 x 3) +	\$1,575
Dues = \$3,780 + \$480 +	\$1,575
Dues = \$5,835
